

Map of Kajiado region

MAP OF THE DIOCESE OF KAJIADO

The Kajiado Diocese (border in blue) is roughly the same size as N. Ireland with a population of about 500,000. Approx. 75% of these people are from the Maasai tribe and the rest are made up of many other tribes. The whole Diocese is a semi-arid region and drought is not uncommon, usually occurring every few years. There is only one main tarmac road running through the Diocese - from Nairobi via Kitengela and onto Namanga. Travel with a vehicle from Nairobi to Kajiado on the tarmac is usually just over an hour.
